1 ---
2 title: Formatting Reports in Markdown
3 subtitle: Formatting Reports in Markdown
4 Markdown is a simple and effective way to format reports. It allows you to add
5 headings, lists, links, and images to your document with ease.
6 # Summary for listings and search engines
7 summary: Formatting Reports in Markdown
8 Markdown is a simple and effective way to format reports. It allows you to add
9 headings, lists, links, and images to your document with ease.
10 Headers
11 Headers are used to break up your document into sections. You can create headings
12 adding one or more # symbols before your text
13 Lists
14 Lists are a great way to organize information. You can create ordered lists by
15 numbers before your text, or unordered lists by adding dashes or asterisks.
16 Links
17 Links allow you to reference external websites or other pages within your document.
18 You can create links by adding square brackets around your text, followed by the link
19 in parentheses
20 Images
21 Images can help illustrate your points and make your document more engaging. You
22 can add images by adding an exclamation mark before square brackets, followed by the
23 URL in parentheses.
24 With these simple formatting options, you can create professional-looking reports in
25 no time. Happy writing!
